

Mitre Square

This square is guaranteed to come out the right size, because it starts from the corner and grows outward.

Materials and Equipment

- Any yarn, in any combination of colours (if yarn is very thin, use two strands together)
- One pair of needles appropriately sized for your yarn
- One stitch marker (or small piece of contrasting yarn).

Jan Burton

Instructions

Cast on 3 stitches

Row 1: K2, place the marker stitch (or contrasting yarn tied so this can be slipped across needles), increase 1, knit last stitch

Row 2: Knit to stitch marker, slip marker onto needle, increase stitch, knit to end.

Row 3: Knit to stitch marker, slip marker onto needle, increase stitch, knit to end.

Next row: Repeat this until work measures 20cm / 8 inches.

Cast off / bind off. Leave a 50 cm/20" tail (for sewing the squares together).

Butterfly* the tail to the square.

**How to 'butterfly the tail' is as easy as 1, 2, 3 . Use contrasting yarn and follow the directions:*

Sew/darn in any other yarn ends along the edge of the square.

A very easy way to measure your work is to knit to the marker stitch and then lay down your work as shown below. Also, this will help to show you that your work will finish up as a square.

Carol Playford
